PREMIUM CERTIFIED™ USED TRUCKS

Mack Premium Certified™ Pre-Owned Trucks are the best quality, best value pre-owned trucks in the industry.

These trucks are late-model, low-mileage units that undergo our most rigorous inspection and reconditioning processes.

Every Mack Premium Certified™ truck is covered by the Mack Bulldog Certified™ six-month, 60,000-mile engine warranty.

These trucks are the finest units in inventory, and the best values in the industry.

What makes a Mack Premium Certified™ truck?

Class 8 tractors that are five model years old or newer with less than 600,000 miles.

Confidence that you're getting the best, most trust-worthy truck in the industry.

This six-month/60,000-mile engine warranty includes turbo and injectors and is backed by NTP, the leader in the used truck warranty business.

The multi-point inspection includes a federal DOT inspection and a mandatory pre-certification test drive.

And if you want even more peace-of-mind with additional coverage, just ask us about extended warranties that are available for up to three years/300,000 miles.
